Warning: This EP contains a lot of violent and shocking lyrics which of course for the most part are fantasy or opinions.

If you're easily offended or influenceable, I recommend you to listen to something else. This is that 2008 lyric shit, now back to the EP.

It's 2021, so I thought I'd tried some fag shit, but hated it.

Shit was cold, heartless, dark and disgusting, so now I know why most of you are fucked in the head.

Chill out, this was just a joke.

A part of equality is being able to take a joke. People bitch and whine about slurs being used in jokingly fashion, whilst the same retards emphasize with a pizza eating pedophile.

Starting a petition to free a guy who killed a mom and child,

because of his looks, what the fuck is up with that?!

Get offended when someone calls them by their gender, so many new extremist groups are being created, spreading even more division and hate.

You talk about respecting each other, but have a hard time respectfully listening, forcing your opinions on each other.

Everybody wants to be heard, but no one wants to listen.

Everyone wants fame, but doesn't want to work for it.

And these social media platforms are making a lot of money off of it.

Shaking your ass online for a bunch of cash, whilst mom and dad look at pictures and think back to the person you ones where.

And then you dare to use the words power and pride.

Sex sells, that's everything everybody always seem to thinks off, the small group of loyal people that's still left are being destroyed.

You dare to say that you love your partner and then fuck someone else behind their back, no you're a fucking psychopath who doesn't give a shit about that.

That you damaging their mental health, that leaves scars and depression you dick.

But you won't get that, because you're a selfish piece of shit who will probably blame it on your other half.

It's all about swallowing dick, fuck pussies and eating cum, it's fucking pathetic.

Toxic feminism and toxic masculism spreads like a disease, using fake statistics and made up Tiktok videos as actual facts.

Even though both men and woman have to fight for equality, fight depression, but in different ways.

But you enjoy playing the victim very day, race here, race there, every week it's something else, maybe all of you should shut the fuck up, sit down and talk and actually try to solve the problems.

The end is near, a pandemic roaming the earth, which divides us even more, darkness and toxicity takes over,

I never thought depression and a mass suicide would be the actual thing that kills humanity.

I was hoping for a fiery death, but I guess this also solves the problem.....US!

SCHIZOPHRENIC

Mommy and daddy, mommy and daddy.
Mommy and daddy I'm sorry.
Mommy and daddy, mommy and daddy.
Mommy and daddy I'm sorry.

She needed money stupid bitch, took her clothes off sucked a
dick.
Put it online, cashing in, daddy found out killed himself.
Mommy's crying, missing him. You where young, you didn't think.
Our kids just found your little films, I'm your husband, what is this.

Schizophrenic, I fucking love her.
Schizophrenic, I fucking hate her.
Schizophrenic, I fucking trust her.
Schizophrenic, I can't help myself.

Her mother is now dying, of a broken heart, you're crying.
You're dropping to your knees, I feel sorry, for myself.
Grab a blade, grab your chin, your eyes are watery, look at me.
Slit her throat, slit her throat, fuck the wound.
Gulp gulp, goodnight bitch, no wait...wtf just happened?

Schizophrenic, I fucking love her.
Schizophrenic, I fucking hate her.
Schizophrenic, I fucking trust her.
Schizophrenic, I can't help myself.

Thoughts of delusion.
Voices that whisper.
To my conscious being.
That's insane (sane).
Violence creeps in.

as I,
gaze in,
her eyes.

Right before I sever her fucking head.
This isn't schizophrenic I just love to torture and kill.
