THE FORMIDABLE END

Social media, the platform doing the opposite of its supposed intention.

People documenting their every step, only for a confirmation.
A platform giving deviousness and extremism a faster way to spread.
Left wing extremists, right wing extremists, Feminazi, Masculist extremist, you fucking name it.
Everyone wants to be heard, but no one wants to fucking listen.
We the fucking parasites devouring this planet.
We the anti-cells who create our own prisons.
Do we really have to wait for the generation to step down, who got raised with war, deviousness and religion.
Go to school, get a job, get married, have kids and die.

Elites, leaders with their social masks.
Elites, leaders with their social masks.
Devouring us and our planet.
Elites, leaders with their social masks.
Elites, leaders with their social masks.
Devouring/Destroying us and our planet.

R3BORN

Evolving true time, made me realize.
Trying to revive, my old fucking life.
A life full of shit. Drugs, alcohol and crime.
I am redesigned, a reborn fucking lie.

Oh I was suffering, fucking suffering.
It all was my fault.
Oh I was suffering, fucking suffering.
I had myself to blame.

I feel disgusted by thinking back, the dark places I've placed myself in.
The past is the past, it's a memory, trying to forget, but I love the pain.

Evolving true time, made me realize.
Trying to revive, my old fucking life.
A life full of shit, Drugs Alcohol and crime.
I am redesigned, a reborn fucking lie.

Oh I was suffering, fucking suffering.
It all was my fault.
Oh I was suffering, fucking suffering.
I had myself to blame.

I was angry at the world.
Destroyed everything and everyone, around me.
But now I'm reborn

Oh I was suffering, fucking suffering.
Oh I was suffering, fucking suffering.

WW3 2.0

They want us all to believe.
Believing in their fucking lies.
Creating chaos and disease.
Media, movies hypnotize.
Poisoned food, the air be breath.
Using religion to deceive.
The poor get poorer.
Owh what a beautiful world,
bless the corporate machine.

The year is 2022.
There is no more religion.
Everything us burned down.
Dominant insects have survived.
Skulls and bones cover the earth,
a once so happy family.
Burned up pictures and disease.
Owh what a beautiful world,
bless the corporate machine.

The world is covered in darkness.
Hypnotizing us with their hypes and lies.
But they don't know,
that many of us are waking up unraveling,
their lies, plans, disguises.
What the future holds is all up to us.
But will we be scared and obey,
or will we try to change everything.

They want us all to believe.
Believing in their fucking lies.
Creating chaos and disease.
Media, movies hypnotize.
Poisoned food, the air be breath.
Using religion to deceive.
The poor get poorer.
Owh what a beautiful world,
bless the corporate machine.

Food has run out.
Acid rains on daily base.
Our planet is now dying,
we are now mutating.
A death that they created,
made of flesh, blood and puss.
The last human just died.
Owh what a beautiful world,
bless the corporate machine.

The world is covered in darkness.
Hypnotizing us with their hypes and lies.
But they don't know,
that many of us are waking up unraveling,
their lies, plans, disguises.
What the future holds is all up to us.
But will we be scared and obey,
or will we try to change everything.

CYBERSPEED

The end is inevitable, the end is near

The end is fucking near,
going fast as cyberspeed.
Propaganda, hate and greed
Modernized slavery, everybody's restraint.
The feeling of having control,
suppression hidden with things.
Being fed cash, materialism.
As the poor starve in 3rd world countries.

As they lay dying, nobody cares.
Our world is rotting, the end is near.
As they lay dying, as they lay dying, as they
lay dying, dying.

New world order, capitalism,
everyone is bending over.
Let the corporate machines take advantage.
They don't give a shit, devouring our planet.
What will happen when the resources are out,
drained and left dry.
When hunger takes over and money is
obsolete.
It's over, it's over, over.

when hunger takes over and money is
obsolete.
It's over, it's over, over, over, over, over.

Die, die, we all will die.
Die, die, we all will die.
Die, die, we all will die.
Die, die, we all will die.

As they lay dying, as they lay dying, as they
lay dying, dying.

The end is fucking near,
going fast as cyberspeed.
Propaganda, hate and greed,
Modernized slavery, everybody's restraint.
The feeling of having control,
suppression hidden with things.
Being fed cash, materialism.
As the poor starve in 3rd world countries.

Die, die, we all will die.
Die, die, we all will die.
Die, die, we all will die.
Die, die, we all will die.

Over, over, over, over.

THE SINNER 2.0

This is the way, to clear conscience.
This is the way, to stay on top.
This is the way, too trash up.
This is the way, to bring us down.
This is the way, to keep silence.
This is the way, to forgive you.
This is the way, to remember.
This is the way.

I needed space,
but you don't care.
Flashback childhood, fears I felt.
I will forgive, I won't forget.
Your social masks crumbling down.

This is the way, to clear conscience.
This is the way, to stay on top.
This is the way, too trash up.
This is the way, to bring us down.
This is the way, to keep silence.
This is the way, to forgive you.
This is the way, to remember.
This is the way.

I guess your answer's fading now, you don't
know what I'm talking about.
You can't ignore the fact, you created a
sinner.

Family, alcohol.
Don't give a shit, you choose wrong.
Clean your act up, prove us wrong.
If you won't, you'll die alone.

This is the way, to clear conscience.
This is the way, to stay on top.
This is the way, too trash up.
This is the way, to bring us down.
This is the way, to keep silence.
This is the way, to forgive you.
This is the way, to remember.
This is the way.

Inner darkness, staying strong.
Battling this, I want it gone.
Taking down the ones I love,
because I see clear true sinners eyes.

This is the way, to clear conscience.
This is the way, to stay on top.
This is the way, too trash up.
This is the way, to bring us down.
This is the way, to keep silence.
This is the way, to forgive you.
This is the way, to remember.
This is the way.

TROUGH SYNTHETIC EYES

Social Masks,
Propaganda.

SOCIAL MASKS 2.0

You play with people's life's,
propaganda on daily base.
We are stupid to believe,
trusting everything you say.
Murdering, lying, spreading fear.
Rulers of this fucking world.
Murderers of society.
Serial Killers in a suit.

Everybody needs to see this as a
motherfucking seashell,
hard too open but the truth is hidden inside.
A pearl that symbolizes the truth, the shell is
just a mask of society.
Destroying everything, why are we blind to
see.
Destroying everything, why not be a unity.

Spreading hate and fear,
propaganda on daily base.
Using all brainless sheep,
feed off the masses that believe.
Believe in everything they see,
try to change society.
Everybody's hypnotized,
because of the media.

Everybody needs to see this as a
motherfucking seashell,
hard too open but the truth is hidden inside.
A pearl that symbolizes the truth, the shell is
just a mask of society.
Destroying everything, why are we blind to
see.
Destroying everything, why not be a unity.

A window to the world,
no place for my dead ends.
Detained in a fucking Box.
Don't want to miss that update,
revealing all of the lies.
Release me from this bliss.
It feels so fucking safe.
ransfixed ideal of a machine.

Everybody needs to see this as a
motherfucking seashell,
hard too open but the truth is hidden inside.
A pearl that symbolizes the truth, the shell is
just a mask of society.
Destroying everything, why are we blind to
see.
Destroying everything, why not be a unity.

Try not to make a change,
Our Motherfucking society.
Together we concur,
world war three is closing in.
Spreading hate, fear, and lies,
propaganda on the rise,
transfixing on the machine,
feed the masses to deceive.

Everybody needs to see this as a
motherfucking seashell,
hard too open but the truth is hidden inside.
A pearl that symbolizes the truth, the shell is
just a mask of society.
Destroying everything, why are we blind to
see.
Destroying everything, why not be a unity.

CLOUDS OF SULPHUR

War!
Death!
Massacre!
Fear!
Chaos!
Devision!
Extinction!
Genocide!

Clouds are gathering, they leave us in the
dark.

Everybody looks up, as they gather.
The Clouds of sulphur, when will the acid
drop?
Wash away our flesh, leave our bones behind.

Suck us dry.
Spread the fear.
Divide us.
They don't give a shit

As soon as we wake up,
they won't stand a chance.
The elites will mess up,
religion will fade away.

Everybody looks up, as they gather.
The Clouds of sulphur, when will the acid
drop?
Wash away our flesh, leave our bones behind.

Suck us dry.
Spread the fear.
Divide us.
They don't give a shit

As soon as we wake up,
they won't stand a chance.
The elites will mess up,
religion will fade away.

War!
Death!
Massacre!
Fear!
Chaos!
Devision!
Extinction!
Genocide!

It's time to liberate ourselves,
there's nothing wrong with being a unity.
Don't believe the media,
stand up for yourselves and help each other.

Embrace equality, life's too short to hate.
Help one another, together we're strong.
Don't mix politics, discrimination and religion.
Every form of devision should be refused.
Together we're strong, that's their biggest
fear.

Their biggest fear,
is unity,
is unity,
is unity,
is unity.

APOCALYPTIC SLAUGHTERING

Mutilating the ignorant.
Rid this world of malevolence.
Skies blackened the innocent are.
Eviscerated.

Corpses decay.
Dried out from sun.
The stench of rotting flesh.
Maggot infected carcass.
The end of humanity.

Mutilating the ignorant.
Rid this world of malevolence.
Skies blackened the innocent are.
Eviscerated.

Apocalyptic slaughtering.
Apocalyptic slaughtering.
